

Rent your touchless water cooler today!

Our stylish touchless water coolers with easy-to-wipe surfaces are the ideal choice for workplaces such as your office, school or hospital.

Help protect people

Dispense water by simply placing your hand above the infrared sensors, without any direct contact.

This offers a new layer of protection for your employees, customers, guests and visitors.

Low-cost rental

Renting your water cooler on an annual basis keeps it affordable.

We keep it "hassle free" and include installation & delivery.

Drink spring water

Great service and competitive pricing for bottled spring water delivery to Eastern Victoria. We deliver on a fortnightly or monthly basis.

Bottleless option

Perfect for high-volume consumption. Filters eliminate the tastes and smells of treated town water. Get constant fresh, clean water.

Proudly Gippsland

Our water is sourced from the Great Dividing Range and bottled in Morwell. We started in 1999 and are locally owned and operated.
